

Obtaining clearance from the Office of Evaluation (OED)

Are you a project formulator?

Check below if your project requires a final evaluation, and if yes, if the final evaluation will be managed by OED, or decentralized.

Section 1

Should my project include a final evaluation?

OED-MANAGED

As per the FAO policy on evaluation, the FAO Office of Evaluation (OED) will conduct a final evaluation of the project, to be launched within six months prior to the actual completion date (NTE date). It will aim at identifying project outcomes, their sustainability and actual or potential impacts. It will also have the purpose of indicating future actions needed to assure continuity of the process developed through the project. FAO Office of Evaluation will conduct the evaluation in consultation with project stakeholders and the donor, and share with them the evaluation report, which is a public document.

GEF

The GEF evaluation policy foresees that all medium and large size projects require a separate terminal evaluation. Such evaluation provides: i) accountability on results, processes, and performance; ii) recommendations to improve the sustainability of the results achieved and iii) lessons learned as an evidence-base for decision-making to be shared with all stakeholders (government, execution agency, other national partners, the GEF and FAO) to improve the performance of future projects.

The BH will be responsible to contact the Regional Evaluation Specialist (RES) within six months prior to the actual completion date (NTE date). The RES will manage the decentralized independent terminal evaluation of this project under the guidance and support of OED and will be responsible for quality assurance. Independent external evaluators will conduct the terminal evaluation of the project taking into account the "GEF Guidelines for GEF Agencies in Conducting Terminal Evaluation for Full-sized Projects.". FAO Office of Evaluation (OED) will provide technical assistance throughout the evaluation process, via the OED Decentralized Evaluation Support team – in particular, it will also give quality assurance feedback on: selection of the external evaluators, Terms of Reference of the evaluation, draft and final report. OED will be responsible for the quality assessment of the terminal evaluation report, including the GEF ratings. After the completion of the terminal evaluation, the BH will be responsible to prepare the management response to the evaluation within 4 weeks and share it with national partners, GEF OFF, OED and the FAO-GEF CU.

DECENTRALIZED

NON GEF

As per the FAO policy on evaluation, this project will include a decentralized final evaluation, to be launched within six months prior to the actual completion date (NTE date) of the project. It will aim at identifying project outcomes, their sustainability and actual or potential impacts. It will also have the purpose of indicating future actions needed to assure continuity of the process developed through the project.

NO EVALUATION

In compliance with FAO policy on evaluation and considering the budget size, no stand-alone project evaluation is anticipated. However, the project will contribute to the Evaluation Trust Fund being managed by the FAO Office of Evaluation (OED) and could be evaluated through a cluster approach, along with other projects that share one or more of the following characteristics: theme and/or approach, geographical area of intervention, resource partner.
